

Meesho Clone — Navigation Flow & Module Architecture

Complete End-to-End Module-Wise Screen Catalog, Route Directory & State Transition Manual

Total Screens: 57+

Functional Modules: 6 Core Modules

Routing Engine: React Router v7 / v6

Global Navigators: FloatingNavigator + NavDrawer + AppBottomNav

Generated: September 2026

Master Navigation Ecosystem Summary

The Meesho Clone application is structured into **6 autonomous yet interconnected business modules**. Users, Resellers, Suppliers, Drivers, and Administrators navigate via targeted journeys, supported by a centralized AppRoutes bridge and a floating Screen Navigator catalog.

Reseller & Fintech

18 Pages

Earnings dashboards, margin config, reseller wallets, instant payout, affiliate partner network, community chat & notifications.

Customer Shopping

15 Pages

Flutter Luxe home, Category explorer, saree/western listings, rich product details, customer reviews, cart, and payment gateway.

Logistics & Fleet

9 Pages

Driver mobile console, task assignment, order pickup, live active map route, delivery history, SwiftRoute AI & Meesho Velocity.

Supplier Hub

9 Pages

Seller web console, inventory & warehouse stock, order dispatching, product upload workflow, category setup & business profile.

Admin & Support

6 Pages

Admin master console, catalog approvals, marketing campaign flow, performance analytics, support center & ticket resolution.

Theme Variations

5 Pages

Digital Curator, Petal Collective, Gilded Pulse, Social Commerce Luxe, and Signal Core theme design ecosystems.

Global Navigation Systems & Controllers

FloatingNavigator Modal (App.jsx)

Global overlay accessible from anywhere via `window.dispatchEvent(new CustomEvent('open-screen-navigator'))`. Provides a filtered grid of all 57+ routes categorized by module tabs: *All, Reseller & Shop, Shopping, Logistics, Supplier, Admin, Themes*.

Global Shortcut & Quick Testing Hub

NavDrawer (Slide-Over Drawer)

Side menu displaying user profile, active tier status (Gold Tier), and categorized deep-links into: *Shop & Catalog, Business & Earnings, Community & Network, Growth & Programs*. Includes logout trigger.

Reseller Workspace Context

AppBottomNav (Persistent Mobile Dock)

Dock bar on mobile/desktop with 6 core touchpoints: **Home** (/reseller-home), **Categories** (/explorer), **Orders** (/delivery-history), **Earnings** (/earnings-dashboard-1), **Profile** (/user-dashboard), and **Screens (62)**.

Primary Mobile Experience Nav

AppRoutes Bridge (handleNav & handleBack)

Normalizes legacy string navigation identifiers (e.g. reseller, cart, inventory, webDashboard, campaignFlow) into canonical React Router paths, allowing seamless component reuse.

Unified Routing Adapter

MODULE 1 Reseller & Fintech System (18 Screens)

Target Persona: Resellers, Social Commerce Entrepreneurs, Affiliates.

Core Mission: Browse wholesale catalogs, add profit margins, share on WhatsApp/Social Media, track sales commissions, and withdraw earnings directly to bank accounts.

Reseller Primary Flow: Margin Setup to Commission Payout

#	ROUTE & URL	SCREEN TITLE	SCREEN PURPOSE & OUTGOING NAVIGATION TRIGGERS
1	/ or /login	 Login / Sign Up	Authentication entry. On successful OTP verification → Navigates to /reseller-home .
2	/reseller-home	 Reseller Home	Curated catalog with margins. Clicks open product details, margin config (/share-earn-config), or drawer menus.
3	/resell-earn	 Resell & Earn	Wholesale catalogue with verified margin highlights. Clicks lead to /share-earn-config and /product .
4	/share-earn-config	 Share & Earn Config	Interactive margin calculator (Base price + Profit = Final price). Generates WhatsApp share links.
5	/earnings-dashboard-1	 Earnings Dashboard 1	Overview of total orders, pending margins, and weekly payouts. Links to /earnings-dashboard-2 and /my-wallet .
6	/earnings-dashboard-2	 Earnings Dashboard 2	Detailed graphical charts of sales breakdown, margin trends, customer retention, and tier bonuses.
7	/my-wallet	 Fintech Style Wallet	Modern neo-banking wallet: displays balance, reward tokens, pending cashbacks. CTA: <i>Withdraw</i> → /withdraw-earnings .
8	/reseller-wallet	 Reseller Wallet	Ledger of all reseller order credits and debit charges. Includes button to /payout-settings .
9	/withdraw-earnings	 Withdraw Earnings	Select bank account or UPI ID, enter transfer amount. Submitting initiates transfer → /payout-confirmation .
10	/payout-settings	 Payout Settings	Manage beneficiary bank accounts, IFSC validation, PAN card verification, and automatic transfer schedules.
11	/payout-confirmation	 Payout Confirmation	Digital transaction receipt with UTR reference number and timestamp. CTAs: Back to Home or Wallet.
12	/refer-earn	 Refer & Earn	Referral code generator with tier milestone rewards (₹1,000 for 3 referrals). Share directly to social media.
13	/affiliate-program	 Affiliate Program	Partner program landing page detailing commission tiers, influencer perks, and onboarding guides.
14	/affiliate-panel	 Affiliate Panel	High-volume affiliate tracker: link generator, click-through rates, conversion ratios, and monthly earnings.
15	/community-hub	 Community Hub	Reseller community forum, top seller spotlights, video learning modules, and community Q&A feed.
16	/messenger	 Meesho Messenger Hub	Chat inbox listing customer queries, buyer leads, and supplier order negotiations. Clicks open /conversation .
17	/conversation	 Conversation Screen	Real-time 1-on-1 messaging screen with instant price quotes, product cards, and dispute resolution.
18	/notifications	 Notification Center	Order status updates, wallet credit alerts, price drops, and promotional campaign notifications.

MODULE 2 Customer Shopping & E-Commerce Flow (15 Screens)

Target Persona: End Consumers, Online Shoppers, Reseller End-Customers.

Core Mission: Discover fashion, lifestyle, and electronics; filter curated categories; inspect reviews; add items to cart; and proceed through secure checkout and payment.

Customer Primary Flow: Product Discovery to Checkout Payment

#	ROUTE & URL	SCREEN TITLE	SCREEN PURPOSE & OUTGOING NAVIGATION TRIGGERS
1	/luxe	Flutter Luxe Theme	Premium animated customer landing page with curated banners, trending collections, and quick category jumps.
2	/explorer / /categories	Categories Explorer	Multi-tier category browser (Women Ethnic, Western, Men, Kids, Home, Gadgets). Clicking a category navigates to listing.
3	/search	Search Results	Dynamic keyword query view with price, rating, brand, and discount filters. Items link directly to /product.
4	/sarees	Sarees Category Listing	Specialized ethnic wear showcase with fabric tags (Kanjivaram, Georgette, Silk). Products link to /product.
5	/western	Women Western Category	Western apparel catalog with denim, dresses, tops, and size selector. Links to product details.
6	/spotlight	Curated Spotlight	Curated editor's picks, seasonal trends, and influencer-endorsed bestsellers.
7	/flash	Flash Sale Landing	Countdown timer sale with high-urgency deals, stock meters, and instant "Buy Now" triggers.
8	/product	Product Detail	Image gallery, pricing, size charts, return policy, and supplier information. CTAs: Add to Cart (/cart) or Reviews.
9	/reviews	Ratings & Reviews	Customer rating breakdown, verified buyer photos, and review filters. Action: Write a Review → /write-review.
10	/write-review	Write a Review	Interactive 5-star rating input, image uploader, and feedback text box. Submitting returns back to /reviews.
11	/wishlist	User Wishlist	Saved favorites list. Supports quick "Move to Cart" (/cart) and real-time price change notifications.
12	/cart	Shopping Cart	Cart items, quantity adjusters, coupon code input, and order total calculation. CTA: Proceed to Checkout → /address.
13	/address	Checkout Address	Saved addresses selector, new address entry (Pincode, City, State, Landmark). CTA: Continue to Payment → /payment.
14	/payment	Checkout Payment	Payment method selector: UPI (Google Pay / PhonePe / Paytm), Debit/Credit Cards, NetBanking, and Cash on Delivery (COD).
15	/user-dashboard	Curator Web Dashboard	Customer account hub: Past orders, active shipments, delivery status tracking, refund requests, and support links.

MODULE 3 Logistics & Delivery Fleet Management (9 Screens)

Target Persona: Delivery Executives, Courier Partners, Fleet Managers, Logistics Dispatchers.

Core Mission: Receive package pickup notices, accept delivery tasks, navigate turn-by-turn with GPS map integration, verify OTP deliveries, and monitor daily earnings.

Driver & Logistics Workflow: Task Acceptance to Package Handover

#	ROUTE & URL	SCREEN TITLE	SCREEN PURPOSE & OUTGOING NAVIGATION TRIGGERS
1	/driver-dashboard	 Driver Dashboard	Mobile-first console with online/offline toggle, today's deliveries counter, trip meter, and direct link to /available-tasks.
2	/available-tasks	 Available Tasks	Nearby pending delivery pool with distance, payout per drop, and pickup hub. Accepting opens /order-driver.
3	/order-driver	 Order Details Driver	Customer name, delivery address, COD amount to collect, package weight. CTA: <i>Start Delivery</i> → /active-delivery.
4	/active-delivery	 Active Delivery Map	Live GPS tracking map, estimated time of arrival (ETA), turn-by-turn route, and call customer button.
5	/delivery-history	 Delivery History	Archive of completed, returned, and rescheduled parcel drop-offs with customer signatures and timestamps.
6	/driver-earnings	 Driver Earnings	Daily and weekly earnings report, petrol incentive allowance, peak-hour bonuses, and withdrawal requests.
7	/rider-express	 Rider Express	Ultra-fast express delivery console designed for same-day and 2-hour intra-city hyperlocal dispatches.
8	/meesho-velocity	 Meesho Velocity	High-priority freight tracking console for hub-to-hub trunk line transfers and transit hub logistics.
9	/swiftroute	 SwiftRoute AI	AI-driven smart routing engine that sequences multiple order drops to minimize fuel consumption and transit delays.

MODULE 4 Supplier & Seller Hub (9 Screens)

Target Persona: Wholesale Manufacturers, Brands, Sellers, Warehouse Managers.

Core Mission: Manage catalog products, inventory stock counts, process and pack new customer orders, print shipping labels, and track supplier payouts.

Supplier Lifecycle: Product Listing to Order Dispatch

#	ROUTE & URL	SCREEN TITLE	SCREEN PURPOSE & OUTGOING NAVIGATION TRIGGERS
1	/structure-flow	 Structure Flow Hub	Supplier operational cockpit with interactive shortcuts to Inventory, New Products, and Orders.
2	/supplier-dashboard-1	 Supplier Dashboard 1	Order intake summary, pending dispatches, SLA breach alerts. Action: <i>Ship Now</i> → /supplier-orders.
3	/supplier-dashboard-2	 Supplier Dashboard 2	Advanced seller metrics: top-selling SKUs, regional demand maps, return-to-origin (RTO) percentage, and ad spend.
4	/supplier-inventory	 Inventory Management	Stock tracking table by variant (Size, Color), low stock triggers, price editing. CTA: <i>Add Product</i> → /add-product.
5	/supplier-orders	 Supplier Orders List	Tabbed order fulfillment (New, In-Packing, Ready to Ship, Shipped). Generates manifest and packaging slips.
6	/add-product	 Add New Product	Catalog creation wizard: upload photos, title, SKU, GST rate, HSN code, variants, and wholesale tier pricing.
7	/add-category	 Add Category	Supplier custom taxonomy creator: add subcategories and attribute sets for structured product listings.
8	/supplier-profile	 Supplier Profile	GSTIN verification, pickup warehouse address, signature upload, bank account verification, and logout.
9	/seller-dashboard	 Seller Web Dashboard	Desktop-optimized multi-panel console unifying sales, inventory health, marketing campaigns, and payment settlements.

MODULE 5 Admin Panel & Support Operations (6 Screens)

Target Persona: Platform Administrators, Catalog Auditors, Customer Support Agents.

Core Mission: Moderate product listings, launch banner marketing campaigns, review platform analytics, and resolve buyer/reseller tickets.

#	ROUTE & URL	SCREEN TITLE	SCREEN PURPOSE & OUTGOING NAVIGATION TRIGGERS
1	<code>/admin-panel</code>	 Admin Web Panel	Central administrative dashboard with system health, active users, catalog moderation, and switch to seller view.
2	<code>/admin-catalog</code>	 Admin Catalog	Quality check (QC) queue: approve, reject, or request changes for supplier product submissions before public display.
3	<code>/campaign-flow</code>	 Campaign Creation	Marketing engine: create discount sales, banner promotions, push notifications, and festival discount events.
4	<code>/admin-analytics</code>	 Performance Analytics	Executive analytics: Gross Merchandise Value (GMV), net margins, active resellers count, and logistics SLA compliance.
5	<code>/support-center</code>	 Support Center	Help desk hub with FAQ categories, instant bot support, and live agent chat launcher → <code>/conversation</code> .
6	<code>/raise-ticket</code>	 Raise A Ticket	Formal dispute submission form: select order ID, upload damage evidence photos, and receive ticket tracking ID.

MODULE 6 Design Ecosystem & Theme Variations (5 Screens)

Target Persona: UI/UX Designers, Product Managers, White-label Brand Partners.

Core Mission: Showcase multi-theme styling, bespoke color palettes, layout paradigms, and next-gen commerce visual systems.

#	ROUTE & URL	SCREEN TITLE	DESIGN PHILOSOPHY & CORE VISUAL FEATURES
1	<code>/digital-curator</code>	 Digital Curator	Minimalist luxury theme tailored for high-end boutique brands with glassmorphism and editorial typography.
2	<code>/petal-collective</code>	 Petal Collective	Soft pastel aesthetic customized for beauty, skincare, and women's fashion with gentle micro-interactions.
3	<code>/gilded-pulse</code>	 Gilded Pulse	Warm metallic and golden accents for premium jewelry, watches, and festival wedding collections.
4	<code>/social-commerce-luxe</code>	 Social Commerce Luxe	High-conversion social commerce theme blending video feeds, live shopping ribbons, and instant buy triggers.
5	<code>/signal-core</code>	 Signal Core	High-tech dark theme designed for electronics, modern gadgets, and urban streetwear with cyberpunk accents.

Complete Cross-Module Business Lifecycle (End-to-End Handshake)

- Supplier (Mod 4):** Lists product on `/add-product` → Verified by Admin on `/admin-catalog` (Mod 5).
- Reseller (Mod 1):** Discovers product on `/reseller-home`, sets margin on `/share-earn-config`, and shares to buyers.
- Customer (Mod 2):** Discovers item on `/product`, checks `/reviews`, and completes checkout via `/payment`.
- Supplier (Mod 4):** Receives order on `/supplier-orders`, prints label, and packs parcel for courier pickup.
- Driver (Mod 3):** Picks up parcel via `/available-tasks`, delivers via `/active-delivery`, confirms OTP delivery.
- Fintech (Mod 1):** Profit margin instantly credited to Reseller `/my-wallet` → Withdrawn via `/withdraw-earnings`.
